Hi Paula,

I did not find a proposed plan for OU2. It looks like we only have proposed plans for OU1 and OU3. Let me know if you would like to see an index of what we have on hand.

I also could not locate an approval letter from EPA to City/County of Denver regarding the RI/FS. I tried various title searches including terms such as "approval" "remedial investigation" and "RI/FS." I also searched under Farrell and Nightengale. Lastly I searched 01/01/2010 – 12/31/2010. I have attached an index of the 6 documents that popped up. The closest one is EPA comments on the FS but I don't think that is what you are looking for. Sorry I could not be of more help. Please let me know if there is anything else I can do. Thank you!

Shawna – Is there a draft Proposed Plan (PP) for OU-02 in the SFRC? The document was never finalized (issued to the public) but it would have been prepared sometime later in 2010. It would have been prepared by Sam Garcia or he would have overseen the drafting of the PP that may have been prepared by an EPA contractor.

Also, is there a letter in the file dated sometime earlier in 2010 that would have gone from EPA to the City/County of Denver approving the RI or the RI/FS. The letter may have been signed by Sam Garcia or perhaps Steve Wharton or Bill Murray. Not sure who exactly it would have been addressed to at the City – maybe a Lisa Farrell or Alice Nightengale???

Thanks

Paula Schmittdiel
